Next Congress Will Be Thoroughly In Accord With His Announced Policies.

Late dispatches do not materially change the figures given in the earliest editions of *The Republic* yesterday on the result of the national election. McKinley is elected President, with many electoral votes to spare. He will have to support him in his policies a Congress thoroughly in accord with him.

New York, Ohio, Illinois, Maryland, Indiana and Kansas have given their electoral votes to McKinley. Kentucky is Democratic. Nebraska is in doubt, but probably Republican. The State fusion ticket, however, has pulled through.

The City of St. Louis wiped out a Republican majority of 15,000 and went Democratic.

Secretary Kerr of the Democratic Congressional Campaign Committee late last night visited the city and met with the members of the Republicans. He gave out a statement

The plurality of John B. Stansfield, the Democratic candidate for Governor in 1960, was 41,893, or nearly 15,000 more than Bryan's.

No sooner has the smoke of battle cleared than the Democrats are already planning to return to the greater city are buying themselves with deals and intrigues regarding Stansfield's possible resignation.

McKinley in the Electoral College and the certainty that the next Congress will be Republican have taken the keen edge of popular interest here.

But the votes have been received, and the material changing the results, and McKinley's plurality at midnight remains approximately 16,000 in the State. John B. Stansfield, the Democratic candidate for Governor, ran ahead of his party's Pres-
